

EXPANDING your  
*BlueWater*

HORIZONS

A *BlueWater* section workshop by **Mike Reynolds**

***Satellite Mapping using Google Earth imagery  
as an aid to navigation***

**on Saturday 1 October 2016 at 09.30 for 10.00**

Mike is an electronics engineer with a keen interest in navigation and communication systems to aid Bluewater cruising. He has developed many GE imagery libraries and shares these with fellow cruisers

**Programme 10.00 -12.00 (approx.)**

**Why use Google Earth (GE) imagery    Using GE Imagery Effectively**

**A GE imagery library    Making your own GE Images**

**Sharing your GE imagery**

**After lunch there will be an optional 'laboratory' session where attendees can create their own imagery on their laptops, import OpenCPN and try them out**

**The cost for the workshop including refreshments and a sandwich lunch is £15**

**You must Pre-book the Saturday Workshop, online via the CA website or [HERE](#)**

**For further information on this event email the *BlueWater* section at [bluewatersec@gmail.com](mailto:bluewatersec@gmail.com)**

There are a few cabins still available for attendees, contact Jeremy at CA House - 020 7537 2828 or email [reception@theca.org.uk](mailto:reception@theca.org.uk) - to reserve your cabin or for information on accommodation in the area. Free parking on Northey St. on Saturdays.
