

BLUE WATER SECTION

LUNCH & TALKS - SUNDAY 12th JANUARY 2020

***Morning:* Options for Circumnavigators Arriving in Australia**

Most cruisers approach Australia from the SW Pacific or New Zealand and they depart towards the Southern Indian Ocean or SE Asia. This talk will explore various options linking 'arrival to departure' in Australia via various magnificent cruising areas.

***Afternoon:* Using GoogleEarth Images for Marine Navigation**

GoogleEarth Imagery can be a useful aid to navigation in inshore waters. In parts of the world where chart data is old, shifted or entirely absent this imagery comes into its own. Apps such as OpenCPN display KAP 'charts' created from GoogleEarth images. All will be revealed.

Both lectures will be given by CA Members, Australians Mike & Nicki Reynolds, who circumnavigated Australia in the 2000s, cruised SE Asia in 2012-2014 and then cruised from Australia to the UK in 2015-2016. Their 34' cutter *Zen Again* is currently lying in St Katharine Docks Marina.
