Graham Adam is the author of the *Isles of Scilly* pilot and he will be giving a comprehensive guide to the Scillies for first-time visitors and old hands alike, revealing the islands' secret anchorages. He is updating the title and the new pilot will be published by Imray in time for the new sailing season - and we will be getting an exclusive preview. This is just one title from the Royal Cruising Club Pilotage Foundation whose publications cover North and South America, The Baltic, The Atlantic Islands, North Africa, South Africa to the Caribbean, the South China Sea, the Pacific Crossing Guide and Arctic and Northern Waters. That is a huge area and collecting data to keep the pilots up-to-date is a Herculean task. **Antony Wells** is a Director of the RCCPF and he will be briefly explaining the work of the foundation.

An essential evening if you are planning a trip to the Scillies and an entertaining and fascinating talk even if you are not. After the talk Graham and Antony will take questions.

An unmissable date for your diary
29th. November at the **Royal Torbay Yacht Club**
