currently doing. We will also hear about their joint work with the Brightlingsea U3A, who research the clothing worn by the original fishermen and crew and reproduce authentic garments.

This promises to be a great afternoon and we welcome those who cannot make the lunch but can make the visit.

On this occasion it would be good if you could let us know if you can make either or both by responding to John's & Penny's address below.

We have one of these lunches from time to time, (usually the last Wednesday of the month) in the off-season, at different locations within the County. We will try to alternate between north & south. The only requirement is a waterfront location and we would like to hear suggestions for the next one.

Hope to see lots of you there.

Penny & John
