

CRUISING ASSOCIATION Suffolk Section

A View to Cruising

All day Seminar at the Royal Harwich Yacht Club

Woolverstone, near Ipswich

Saturday 25 October 2014

For people who are dreaming of **Expanding their Horizons** by going away for three or four month's cruising at a time rather than for two or three weeks annual leave, but are not sure of the practical details involved and what problems may be encountered.

- What is the life really like?
- Where to go?
- Do I need to make special preparations to the boat?
- What about home, family, pets and grandchildren?

The seminar will cover all these points and much more with speakers who have many years of experience of doing just this.

The day is not aimed at Blue Water cruisers planning to set off across the Atlantic or round the world, but at more modest cruises in home waters or the near continent.
